Harshit

srivastavaharshit966@gmail.com | github.com/Hars-hit99 | linkedin.com/in/harshit-099164373

SUMMARY

Computer science student who builds across the stack: web apps, Python tools, and computer vision/ML projects. Seeking internships and software roles where I can learn fast and ship.

PROJECTS

Daybook Live demo | GitHub

React/Vite + Supabase life-tracking app with habit, gym, nutrition and journal tracking. Deployed on Vercel.

CIFAR-10 Image Classifier GitHub

PyTorch CNN (~1.34M parameters) trained with AdamW and cosine LR scheduling, with data augmentation and training, inference and evaluation scripts.

QuoteScrapper GitHub

Python web scraper that collects quotes into structured data.

EXPERIENCE

Machine Learning Intern - Shadow Fox June

Python Intern - Shadow Fox May

EDUCATION

B.Tech, Computer Science & Engineering - Central University of Jammu Expected 2029

SKILLS

Languages: Python, C++, JavaScript
Web & data: React, Vite, Supabase, NumPy, Pandas
Vision & ML: OpenCV, PyTorch, core ML workflows
Tools: Git, Streamlit
